

Declaration

To be mailed to: Section 7.54, Vacuum Metrology
Physikalisch-Technische Bundesanstalt
Abbestraße 2–12
10587 Berlin, Germany

or email to vacuum.cal@ptb.de; may also be sent with instrument.

Subject: PTB reference no.: 7.5-1V-15-05, date of confirmation: 2018-10-08

This is to certify that the vacuum gauges and/or test leaks (including their vacuum components) which we ordered to being calibrated by PTB

- are not contaminated with toxic, corrosive, explosive, radioactive, microbiological, carcinogenic or other harmful substances,
- were investigated with respect to their operational reliability before shipment to PTB,
- leave our house in a condition according to the general rules of high and ultrahigh vacuum techniques (not applicable for sniffer leaks) and in a condition that a contamination of the PTB calibration standards can be excluded (e. g. by oil or other hydrocarbons),
- are ready for calibration from the metrological point of view,
- obey the general rules of prevention of accidents and the acknowledged rules of relevant techniques and
- that we have no knowledge of any other indication of obstacles to a calibration.

Transport shall be organised in the following manner¹:

☐ Please, use the regular PTB shipping agent (PTB cannot insure transport!).

☐ Please, use the following carrier²:

Our customer number³ at this carrier:

Questions about the organisation of the transport: telephone: +49 30 3481 7317
email: lagerberlin@ptb.de

institution / company

place, date

purchase order number

legally binding signature
and stamp

¹Any costs related to transport and customs clearance have to be paid by PTB's customer. For equipment from customs area outside EU an ATA carnet is required.

²If customs clearance is necessary, it may not be possible to use your carrier chosen. In normal cases, customs clearance has to be made by the local carrier that organised the local transport to PTB.

³Please take care that the number given is valid for transport from abroad.
